construction  
workers and  
their families.**

**No judgement.**

**No strings  
attached.**

## FUNDING

Corporate & individual donations

Annual Golf Outing

Industry Fundraising Events

# 2025 IMPACT REPORT

## WHO WE ARE

Led by a group of construction professionals who are passionate about their industry and the people who comprise it, the Construction Family Assistance Foundation was founded in 2012 in Indiana to ease the burden of life-changing workplace incidents and allow families to begin healing in the most difficult of times.

## OUR MISSION

Financially assisting Indiana construction workers and their families who have been affected by a life-changing workplace injury by providing timely monetary support to bridge short-term, immediate needs with future resources.

## HOW WE HELP

The CFA Foundation provides timely financial assistance to families after an incident, bridging the gap until workers' compensation or insurance becomes available. Eligible applications are quickly reviewed and approved by the Board of Directors. Funds can cover essentials such as groceries, travel, childcare, housing, utilities, education, or funeral expenses.

## GET INVOLVED

- ◆ Participate in the CFA Foundation Golf Outing or other fundraising events
- ◆ Organize a fundraising event
- ◆ Make a corporate or personal donation
- ◆ Share our materials with your colleagues and family

## BY THE NUMBERS

# 60+

construction workers and their families have received vital financial support after life-changing construction incidents since the organization's founding

2025 gifts have ranged between

# \$5,000 - \$15,000

“

We did not realize how much people in this world still care when tragedy strikes total strangers. Your caring and kindness are so uplifting... We want you to know how much you helped us during the holidays and days to come and how great you made us feel.
